Wayne Hoffman

After working 30 years for IBM, Wayne, along with his son Jon, opened the Hearing Aid Company of Texas in 1990. Under the name Hearing Aid Factory, they manufactured their own hearing aids in the office in the on site lab. Business began growing so fast that in 1994, they changed to a full service clinic and renamed the company the Hearing Aid Company of Texas. Since then, the company has grown, adding a full service clinic in Rio Grande Valley, Texas and one in Calallen, Texas and the addition of several staff members. What has not changed is the commitment to exceptional quality patient care and state of the art technology in hearing care products. Today, Wayne oversees the marketing of the company as well as the overall organization. He is very involved in daily business operations and still finds time to work with patients.

LUNCH -N- LEARN

Come join us for our lunch -N- learn event. The first Monday of every month. Carla Hoffman-BC-HIS hosts this wonderful event and provides the latest in technology updates and will answer any and all questions you may have about our newest hearing aid products. Please call and RSVP today!!
